ArtWalk

The popular urban art trail is spearheading a collaborative project to collect and preserve personal Rochester histories, large and small. These stories will form an archive of possibilities for use by artists as they plan and execute public art projects over the next several years for the planned expansion of ARTWalk. The stories will also be an important resource for future historians, and for others as they seek to understand – and enjoy – that which makes Rochester... well, Rochester!

Your Rochester story can be unusual or offbeat; shared by many or totally unique. It can be a story of a public event, or a private experience, from long ago or the recent past. It can be a story about innovative ancestors, or of everyday life.

Rochester Stories archived at the Rochester Historical Society will be made permanently available for future generations.

Come tell your story!

How to Share your Story

Bring a written piece, or come and tell your story to a volunteer. Volunteers can also copy a photo if you have one.

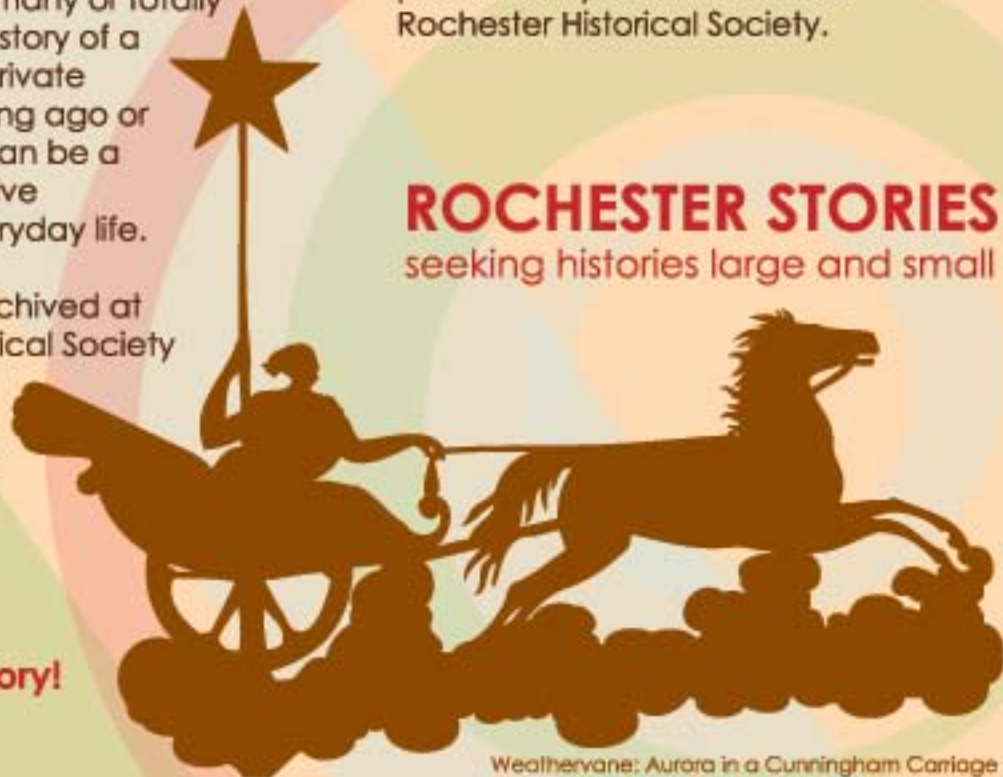

Unable to attend?

Submit your story anytime before or after the event:

- Find Rochester Stories at www.rochesternota.org
- Call Karen McCally at Rochester Historical Society (585) 271-2705

Remember! Your story will be permanently archived at the Rochester Historical Society.

What is ARTWalk2?

It's an expansion of the popular University Avenue ARTWalk further into the cultural community. The original ARTWalk has been recognized and celebrated by the residents of the Neighborhood of the Arts (NOTA) and the Rochester community since its completion in 2002. ARTWalk received the "2003 City Livability Award" by the U.S. Conference of Mayors.

The core principles guiding ARTWalk 2 are:

- Participatory, engaging, interactive elements for all ages
- High quality timeless art
- Art that strengthens community pride
- Broad appeal, magnet for all ages and backgrounds
- Reflects rich history of the community
- Creates a sense of place
- Celebrates cultural diversity of the city
- Durable and low maintenance
